

Chicago to Puget Sound
and return
May 15 to Sept. 30
\$86

The enormously powerful electric locomotives that haul "The Olympian" through the western mountains pioneer a new era in railway operation

"The very last word *in* transportation"

—THOMAS A. EDISON

Edison is speaking of the Chicago, Milwaukee & St. Paul. He had just experienced the delight of traveling through the American Rockies by electric power. In the smooth, smokeless and *electrically* driven flight of that incomparable train "The Olympian" across the mountains, he saw electricity's grandest application. Enjoying as you and every passenger must enjoy this pleasurable journey, he voiced the thought of that great body of accustomed travelers who regard the "Milwaukee" as the most progressive railroad in the world.

The only line operating transcontinental trains by electric power
The only line owning and operating its own sleeping cars between Chicago and Seattle-Tacoma
The only line operating over its own rails all the way between Chicago and Puget Sound
The shortest line from Chicago to Seattle-Tacoma and the Orient

GEORGE B. HAYNES, General Passenger Agent, CHICAGO, ILL.
