## OFFICERS GRAB SLICK SLACKER

Butte Case Has No Parallel in Records, It Is Said.

Butte, April 18.—(Special)—Were he not harassed by the thought of having to go to court-martial at Fort Missoula, Aati Tyrvainen, alias Edward Matson, might pride himself on having dodged the draft in the World War in a slicker manner than any other that has come to light. According to officials of the department of justice in Butte who apprehended Tyrvainen after six years' search, his method of beating Uncle Sam out of his services has absolutely no counterpart and he leaves the amateur methods of other slackers so far behind that he is in a class by himself.

Tyrvainen, a native of Mikkeli, Finland, according to the citizenship papers he secured at Missoula in 1913, came to the United States in 1905. He was a full-fledged citizen when Uncle Sam decided to take a hand in the World War. Tyrvainen was summoned before the draft board in Silver Bow county and after classification he disappeared.

In the fall of 1918, as Matson, he returned to Butte and registered with the draft board as an alien who had come over from Finland in 1917. He reduced his height, regularly five feet

## SNOW VANISHES HOPES REVIVED

Better Conditions Now Reported in Sheridan District.

Sheridan, Wyo., April 18.—(Special)—According to reports reaching here, with the Tuesday snowfall vanishing rapidly, hopes for good spring range conditions are reviving, because the range grass, although retarded by the bad weather of March, is full and receiving plenty of moisture.

Tuesday's storm covered the Sheridan division of the Burlington railroad. The storm caused apprehension among stockgrowers, because virtually all of the stock feed was consumed during the month of March when no grazing was available; but the snow did not stay long, and now the short grass is getting a second lease on life.

No great loss from unfed stock resulted from the snow-bound conditions of March, according to information available, although many ranchers in the Lodge Grass and Dutch creek sections were nearly out of feed, especially hay, when the weather turned and opened up enough grazing to save the stock.

Some wool in Sheridan county is being sold for 40 cents, while offers of from 10 to 10 1/2 cents have been made for lambs, according to reports. That price appears general throughout the state at present, although Lincoln county, in the Star valley, reported some wool going as high as 45 cents.

## BACK TO MINES AND LONG HAIR

After 12 Years in Alaska He Finds U.S.A. Too Swift.

Butte, April 18.—(Special)—John C. Thomas, 35, a native of Helena, who went to school in Butte five years, says he is too old fashioned to live in Montana and is leaving for Seattle, where he will return to Alaska, where he has put in the last 12 years. He came to Butte a week ago to visit his sister, Mrs. E. R. Williams.

This is the first time that Mr. Thomas has "come out" of Alaska since he left Butte in 1912. He is employed in dredging work not far from the once famous town of Dawson.

"I guess 12 years in the wilderness makes a man too old-fashioned to towns like Seattle and Butte," he said. "When I left Butte the popular dances were the waltz and two-step. Now they are the wiggle and giggle. Then a chap could get a glass of beer or a real cocktail. Now it's liquid lightning. I was at a party Sunday night and the crowd continued for four hours to sing, dance and insist 'It Ain't Goin' to Rain No More.'"

"A long-haired girl is as uncommon now as a girl who used a lipstick in 1911 and 1912. Of course, being out of the world of fashion so long, I am not trying to give any opinions on dress reform, but Saturday when I was forced to go to three barber shops before I could find one that was not crowded with children who thought they were grownup ladies, each getting everything in the shop list but a shave, and they get that on the neck, I made up my mind that I'd cut short my visit and go back where only the mere males smoke cigarettes."

## May Lose One Foot: Result of Exposure

Sheridan, Wyo., April 18.—(Special)—Mrs. Stephen Garvey, who two weeks ago walked through a blizzard from her homestead in the Big Horn mountains to Kane, being out two days and nights without food, fire or shelter, has been taken from Greybull to the hospital at Basin, where one of her feet, which was badly frozen, may yet have to be amputated. Exhausted from the cold and hunger, Mrs. Garvey was found in a fainting condition near Kane. She later gave birth to a stillborn child.

The woman set off to walk to Kane after her husband had been gone 14 days and she became convinced that he had met with an accident. When she recovered sufficiently to tell her story, searchers set out and found Garvey's frozen body near the Sioux Trail crossing of Devil's canon.

## ROAD MUST PAY

Cheyenne, Wyo., April 18.—(Special)—The Wyoming supreme court has affirmed the decision of the district court awarding to Frank G. Tolman \$3,114.43 damages from the Chicago, Burlington & Quincy Railroad company for the loss by Tolman of 247 head of sheep which were being transported by the defendant carrier.

## Veterans' Good Work In Forestry School

Missoula, April 18.—(Special)—Each quarter a list is prepared of 21 men who attain the highest grades in the school of forestry at the University of Montana. The excellent work being done by the disabled ex-service men who are attending this school under the supervision of the United States veterans' bureau, is revealed by the latest list, which shows that 11 of the 21 students cited for scholarships last quarter are trainees of the bureau. The significance of this record will be better understood when it is explained that of the 96 students registered in the forestry school only 28 are bureau trainees.

The trainees who won this distinction are Charles Bloom, Walter Suttler, Ralph Fields, Samuel Harris, Raymond Blaney, Howard Gray, Lee McCoy, R. T. Moore, Stanley Lukens, Bernard Lee and Charles Craig.

## Uses Ash-Can Bank; Now He Is Out \$50

Butte, April 18.—(Special)—Had John Barry had his money locked up for safe keeping and hidden himself in an alley there wouldn't be any story. But John did just the opposite—hid his money under an ash can, then had himself arrested—so it's a sad tale.

John first appeared at the city jail last Friday night. In police court next morning he announced that he had hidden \$50 under an ash can, and just had to hurry back to get it. He was dismissed. He was again brought before Police Judge Shea on a charge of drunkenness. He then broke the sad news that the \$50 was missing from under the ash can when he went back to look.

## Placer Gold Hermit Pans Out Last Colors

Laramie, Wyo., April 18.—(Special)—"Billy" Class, placer gold "hermit of the Medicine Bow range," is dead here at the age of 70.

Class was known for more than 30 years as the only prospector who was able to make a living out of gold placer operations. The aged miner made his home, summer and winter, in a little cabin on the shore of Class lake, 10,000 feet above sea level at the foot of a glacial flow from the Snowy range.

## Montana Regiment's Personnel Complete

Helena, April 18.—(Special)—With the muster-in here of the first battalion headquarters company, the personnel of the Montana national guard regiment is complete and no more companies can be created.

The headquarters company consists of two officers and 19 enlisted men with W. G. Ferguson as first lieutenant and commanding officer and Charles R. Clark as second lieutenant. The company was mustered in by Maj. H. B. Keen, U. S. A., senior instructor for the Montana national guard.

With the addition of this company the state organization now contains 19 companies with 56 officers and 1,157 enlisted men.

## LEG BROKEN BY SHOT.

Dodson, April 18.—(Special)—James Burge, young son of a farmer who recently moved on the Ray Lee place, was accidentally shot with a rifle which broke his leg, passing through and embedded itself in the other limb. The boy and two younger brothers had been shooting gophers. The oldest boy laid the gun down and the youngest of the three pulled the trigger. The wounded boy was taken to Havre for attention in the hospital there.

## S.S.S. stops Rheumatism

"My Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S. S. S. for it all! Do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them." S. S. S. is the great blood-cleanser, blood-builder, system-strengthening, and nerve invigorator.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

## SNOW VANISHES HOPES REVIVED

Better Conditions Now Reported in Sheridan District.

Sheridan, Wyo., April 18.—(Special)—According to reports reaching here, with the Tuesday snowfall vanishing rapidly, hopes for good spring range conditions are reviving, because the range grass, although retarded by the bad weather of March, is full and receiving plenty of moisture.

Tuesday's storm covered the Sheridan division of the Burlington railroad. The storm caused apprehension among stockgrowers, because virtually all of the stock feed was consumed during the month of March when no grazing was available; but the snow did not stay long, and now the short grass is getting a second lease on life.

No great loss from unfed stock resulted from the snow-bound conditions of March, according to information available, although many ranchers in the Lodge Grass and Dutch creek sections were nearly out of feed, especially hay, when the weather turned and opened up enough grazing to save the stock.

Some wool in Sheridan county is being sold for 40 cents, while offers of from 10 to 10 1/2 cents have been made for lambs, according to reports. That price appears general throughout the state at present, although Lincoln county, in the Star valley, reported some wool going as high as 45 cents.

## Strap-Hangers Push Engine Out of Way

Butte, April 18.—(Special)—Passengers on four northbound street cars from the flat had to "get out and push" a locomotive out of the way before they could get to town yesterday afternoon.

At the crossing of Iron and Utah streets the E. A. & P. railway has a "dead stretch" of nine feet, designed to prevent the 2,400 volts it carries from interfering with the 600 volts on the street railway line. A heavily loaded train, moving slowly, failed to "make the stretch," and the locomotive stopped dead on the crossing, blocking the northbound street cars.

Trainmen were at a loss as to how to get the locomotive across, until some one suggested that it be pushed. The pantograph on the engine was lowered, and with all available pinch bars in use, male passengers on the cars pushed the engine out of the way.

## Cold Weather Delays Log Drives in West

Missoula, April 18.—(Special)—C. E. Knout, lumberman, who has returned from an inspection trip, says that log drives in the western part of district 1 of the forest service are being held up on account of cold weather.

Ordinarily, high water permits log drives to progress rapidly at this time of the year, but this spring operators are experiencing difficulty in moving timber.

Under the supervision of the forest service, piling and burning of brush to clean up after all logging operations on national forests is going on at this time, the weather being ideal for this purpose.

The Rutledge Lumber company is to operate eight or nine camps in the Marble creek country west of Missoula on the Milwaukee this summer, planning to take out 25,000,000 feet during the coming season. The Milwaukee Land company is also working with several camps in the Marble creek region, where cedar operations are quite heavy.

## FORFEITS \$1,000 BOND.

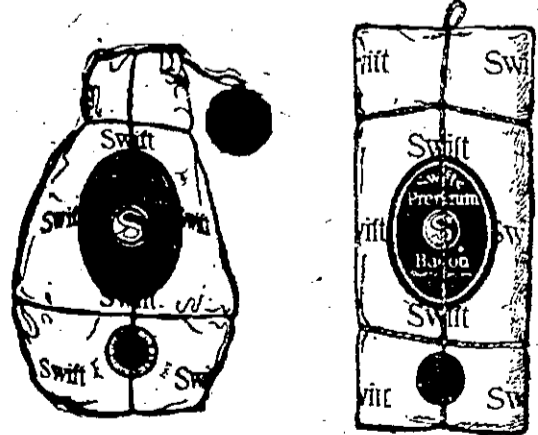

KallsPELL, April 18.—(Special)—A. J. "Mickey" Wagner of Coram, well known as an old time guide in the region just south of Glacier park, failed to appear on arraignment in district court here on a charge of manufacturing intoxicating liquor, and his bond of \$1,000 was declared forfeited.

It is claimed that Wagner has sufficient property in this county to indemnify his bondsmen.

Prominent Wyoming Physician Summoned  
Cheyenne, Wyo., April 18.—(Special)—After an illness of more than seven months, Dr. Arthur E. Lane, one of Wyoming's leading physicians and surgeons, died at Long Beach, Cal., Sunday evening.

Dr. Lane was a native son of Wyoming, having been born at Cheyenne Feb. 6, 1872. For a number of years past he had practiced his profession at Laramie. He was a veteran of the Spanish-American war and had recently been granted a pension for disability sustained while serving in that war. During the World War he was regimental surgeon of the Seventeenth United States Infantry. At the time of his death he held the rank of major in the reserve corps of the army. He was a member of the American College of Surgeons and was president of the alumni of the medical department of the University of Nebraska, being the only graduate of that institution to hold that position, who was not a resident or son of Nebraska. He was a member of the Masonic fraternity, a Knight Templar, Shriner and Consistoryman.
